

PROTECTION TECHNOLOGY AS ADVANCED AS THE WEAPONRY.

PROVEN EFFECTIVE FROM THE DESERT TO THE JUNGLE WATERPROOF, BREATHABLE, AND CORROSION RESISTANT

Envelop® protective technology is at work on weapons, optics, equipment, and electronic components of all kinds, deployed by all branches of the U.S. military.

Envelop protective covers earned this widespread acceptance by providing protection against environmental degradation caused by moisture, sand, salt, heat, and UV.

Today, more than 20,000 Envelop protective covers are protecting U.S. military assets in the world's harshest environments. For more information or to receive a demo cover call 651-289-3067 x103 or visit www.envelopcovers.com.

OUR PATENTED TECHNOLOGY

- Reduces corrosion by up to 90%
- Assures readiness
- Lessens maintenance man-hours
- Frees time for training
- Decreases the need for lubricants and other hazardous materials
